

Product Description

Indoor in humid rooms for filling walls and ceilings of plaster, concrete, plasterboard etc.
Has to be painted.

Directions for use

Remove dirt, dust and loose material.

Wash down previously painted surfaces with appropriate detergent.

Priming of porous and waterabsorbing surfaces with Mikrodispers 716 is recommended.

Apply up to 3 mm per layer, when filling layers of more than 3 mm the filler must be applied over a number of timers.

Each layer must dry completely, to obtain adequate performance.

Cleaning instructions

Cleaning with clean water, preferably added a little detergent, immediately after use.

Remarks

For further workin instructions, please contact B&J Tecnical Department.

Use eyeprotection and mask when sanding.
